

5:1 IVAT Ground/Primer Filler

This Primer Filler is ultra high solids and low in viscosity. The mixing and application of this primer is so easy and gives high anticorrosive protection.

It is also manufactured to be used wet on wet and can be applied directly onto galvanised and plastic surfaces.

It is very easy to flat and prepare, giving a smooth surface to over-coat.
Available in 6 litre, 3 litre and 1.2 litre Kits (includes Primer & Hardener mixed 5:1).

The Product
